

Dear Parent,

You are receiving this email because our school and our parents have been offered an exciting opportunity to receive training in the internationally acclaimed Love and Logic[®] approach! This training will help us do an even better job of providing the type of orderly and caring school environment that helps kids reach their highest potential.

We hope that you will participate in this wonderful opportunity. Of course, your participation is completely voluntary.

This is how it will work:

- Use the link below to complete a 30 minute online questionnaire. The deadline for completion of this questionnaire is September 30, 2014.
https://www.icoalesce.com/p/1167/rindels_parent/
- About this time, your child (or children) will also be asked to complete a questionnaire at school.
- You and your child (or children) will be asked to complete similar questionnaires once again in November

Note: These questionnaires will remain completely anonymous (no one will know yours or your children's individual answers). Please contact me if you do not wish for your child to complete the questionnaire.

You are also invited to participate in the following:

- A fun and informative session provided by Dr. Charles Faye on.
- Six 30 minute on-line classes. These can be completed any time between January 1, 2015 and April 1, 2015 by simply watching fun videos on your computer, tablet or smart phone and doing a few brief, simple exercises.

I know Love and Logic is different from any other program. It's definitely not boring! It's simple, entertaining and gives us plenty of tools for taking much of the stress and exhaustion out of helping our children learn to be well-behaved and happy.

To watch a sample Love and Logic[®] video and to see how it has changed many people's lives, visit: <http://www.loveandlogic.com/t-The-Way-Sample-Clip.aspx>.

Sincerely,

Kris Rindels
